WEDNESDAY, AUGUST 16, 1848.

WHIG NOMINATIONS.

FOR PRESIDENT,

GEN. ZACHARY TAYLOR.

FOR VICE PRESIDENT,

MILLARD FILLMORE.

FOR GOVERNOR,

ELIJAH L. HAMLIN.

Penobscot and Piscataquis

Congressional Convention.

THERE will be a Convention of the Whigs of the *Congressional District* composed of Penobscot and Piscataquis Counties at EAST CORINTH on *THURSDAY, the 17th day of August next* at 11 o'clock A. M. for the purpose of nominating a candidate to represent said District in the next Congress. Also to nominate a candidate for Electors of President and Vice President.

Towns having 1000 inhabitants and under two delegates; over 1000 and under 1800 four; over 2000 and under 3000 six; over 3000 and under 5000 ten; and over 5000 fifteen. The census of 1840 to be taken to determine the number of inhabitants.

It is hoped that every town will be fully represented.

By order of Committee.

July 11

County Convention.

The *Democratic Whigs* of the County of Penobscot are invited to meet in Convention, by delegates at EAST CORINTH on *Thursday*, the 17th day of August next at 1 o'clock P. M. for the purpose of nominating three Senatorial candidates for the Senate of the State for the ensuing year; to nominate a candidate for County Commissioner, and to elect a County Attorney. Also to transact such other business as may properly come before the Convention.

The basis of representation will be the same as that which for the Democratic Convention.

By order of Committee.

Bangor July 17 1848

[M. F. E. Nason of Exeter has published the following which is worthy of a general circulation, as the Democratic Convention, in the Democratic Review, over his own signature. Now names whether great or small have very little influence with us. We meant to be plain and to the point, and to award praise, the same to all men. So much for the name.

Mr. Nason draws a few facts and upon these arbitrary and exclusive which seems to satisfy him, and he offers the work of his head and heart to the public and claims a certain assent. We would remind him that in order to arrive at a correct conclusion, it is of the first importance that he should include in his premises all the essential facts in the case. He probably knows very well that fifty facts may be essential to a truth. If he uses forty nine of those facts and conceals, or is ignorant of the fiftieth fact which is essential to the right understanding of the whole matter, he fails to arrive at the truth. The truth, the conclusion to which the forty nine facts would lead, is erroneous and false; wherefore by including the essential and important fiftieth fact the truth would at once appear, and the whole matter become luminous as noonday.

It is very important to bear in mind in all investigations and discussions the vital importance of a clear and full statement of facts in the case. Now the Mr. E. F. Nason has neglected to do whether from ignorance of their existence, or from perversity of heart, in concealing them with the intent to deceive, is not for us to decide. In either case the result of his reasoning is the same. His premises being partial and erroneous his conclusions are of the same character.

Let us see now, how Mr. E. F. Nason has established in this matter, and we shall then see how with even an honest mind, he has arrived at an erroneous conclusion on account of his not being in possession of the facts belonging to the case or of not using the facts in their every bearing and application and hence not appreciating the importance of their use.

Mr. Nason says —

"Let us look at the candidates for the presidency. We are confident there exists no one man who will not say to himself, I take Gen Cass a Northern man by birth and bred in our own New England, a man who left us free from the curse of slavery with a clear field and an open territory, and who has from that period to the present time resided in the South, identified with the interests of the United States that he is as much opposed to slavery as any other man, we ask nothing against the statement of Gen Cass, that a change has been going on in his mind and that he does not see any great of power to Congress to interfere slavery in the territories. Indeed when we examine the letter of Gen Cass to Mr Nicholson, we are necessarily led to the conclusion that in spite of the facts introduced by Mr Nason, Gen Cass will not 'sanction' but will veto any bill inhibiting slavery in the territories. He must do so because he says that Congress does not possess the Constitutional power to make such limitation.

But some of the friends of Mr E F Nason may be willing to take his logical conclusion, however faulty, as his personal opinion, and think it worth something, and trustworthy.

For the purpose of showing the erroneousness of Mr E F Nason's opinion as to what course Gen Cass would pursue touching the matter of Free Soil, we introduce the opinion of Mr. Richie the editor of the Washington Union, the personal friend and familiar acquaintance of Gen Cass — a opinion, too, expressed after the publication of the Nicholson letter and after knowing all about his opinions. Well, Mr Ritchie says —

"Gen Cass has bravely and frankly declined his position on the Wilmot proviso in his Nicholson letter. *He will veto the Wilmot Proviso.* We are almost certain that Gen Taylor will not.

Now we have no doubt that Mr E F Nason will admit that Mr Ritchie undoubtedly has had as fair opportunity to form a correct opinion on this matter than himself. We decline to the opinion that Mr E F Nason after attentively reading the Nicholson letter, will himself be satisfied that Gen Cass will, as an opportunity occurs, veto the Wilmot Proviso.

The same general remarks which we have made in reference to the equipment of facts by Mr E F Nason in the case of Gen Cass will apply in what he is pleased to say, of Gen Taylor.

We have already given the opinion of Mr Ritchie of the Washington Union that Gen Taylor will not veto the Wilmot proviso. We now give the General's opinion as expressed in his own words.

The personal opinions of the individual who may be given to occupy the Executive chair ought not to control the action of Congress upon the questions of domestic policy, nor ought his objections to be interposed where questions of constitutional power have been settled by the will as deposited in the people and observed by the departments of government, and acquiesced in by the people.

Mr E F Nason will here see that Gen Taylor believes in the constitutional power being in Congress, to act the Wilmot Proviso, as this is a power which has been settled by the consent and sanction of the people and all the departments of the Government since 1787. The action of Congress in this matter Gen Taylor says should not be controlled by the President. This overrides and adjusts and places in a minor position, the fact mentioned by Mr E F Nason that Gen Taylor was a Southern man inured to slavery, and hence upsets and ruins his conclusion.

We have no acquaintance with this Mr E F Nason who seems so eager to thrust himself before his party and the public as a public political discussion with us. We have not the slightest disposition to make this a personal matter, and have therefore in a quiet manner shown Mr E F Nason the errors into which he has fallen and that by including all the essential facts in his premises he will be led to the same conclusion to which we have arrived. The opportunity occurs Gen Cass will veto the Wilmot Proviso, and that Gen Taylor will not.

Fatal Accident.

We learn from Dr Smith of Newburyport a passenger in the boat yesterday that as the accommodation team from Boston to Portland was stopping at Kennebunk on Monday Mr L Libby in express train, while standing between the cars and tender was struck on the chest, expelling the breath forcibly from his body, before the cars left, life was extinct. Mr Libby was the son of Dr A Libby principal of the Limerick Seminary. He was 23 years of age had just completed his collegiate education, is said to have unparalleled thereby, he was pursuing the express business or station very.

A young gallant, passenger in the cars, on witnessing the fatal catastrophe sworned, and was seized with convulsion, became delirious and remained of this condition during the entire night. She was somewhat recovered in the morning upon the arrival of the steamer in this city.

American Institute of Instruction.

The nineteenth anniversary of this Institution commenced its session in this city yesterday afternoon, the delay in the organization being caused by the delay in the arrival of the steamboat.

We have not space today to give a report of the proceedings of the afternoon and evening of yesterday but shall do so tomorrow. We have just this, however to say to our people, men and women all—attend the lectures before the Institute—attend them all and you will do good and get good.

The lecture for last evening by Mr Crosby the Secretary of the Board of Education, is spoken of as a most excellent one.

The evening session will commence at 7½ o'clock.

In one of the cars on the New York and Erie Railroad, handsomely furnished and well ventilated through the heat, the superintendent has introduced wire gauze blinds, as a protection from sparks and dust while they freely admit air and light. Those accustomed to railway traveling will appreciate this improvement.

☞ The State of Maine on her trip to this city yesterday took from Portland 341 passengers and had 85 way passengers, making her whole number for the trip 425.

☞ Drowned in this city yesterday, while bathing, Capt Moses Kendrick of New Bedford, aged 22 years.

☞ Thanks to Jerome & Co's Express for papers received on yesterday, in advance of the mail.

One month only!

The election is to be on the 14th of September, and this is the 16th of August. Are the Whigs of Maine ready for it? Have they reflected that the majority in Congress may depend on *their* votes on this day? Have they conversed with each other and their neighbors of all opinions, as to the general policy of the country? Have they enquired as to endeavored to ascertain the cause of the present depression in business of all kinds? Are they prepared to apply the only remedy? Or will they defer the matter till after election, when it will be too late? Gen Taylor can do nothing without a Whig Congress to second him. He is not the law-making power. Let not the September election be go by default, and rely upon *other States* to do what we neglect to do ourselves. Where are we being summoned!—Where are Boys Ready Clubs? Where are our organizations properly attended to.

[Bos Journal.

ARRIVAL OF THE ACADIA.

Seven Days Later from Europe.

The Steamship Acadia, Capt. Stone, from Liverpool, 25th ult., arrived in Boston on Monday.

The intelligence by the Acadia is not important. The excitement in Ireland was not allayed, but there was no outbreak, and letters from the island state that preparations were so strong that it was doubtful if anything serious would be attempted.

Commercial affairs have not varied in appearance since the departure of the steamer. Cotton remained unchanged in price, and holders were firm. The Corn market exhibited no change of importance—prices were quite as full as at the last dates. The more settled state of affairs in France had induced a firmer feeling in the money market, though the unsettled state of Ireland had flattened consols.

IRELAND.

The European Times says—"The position of this unfortunate and disturbed country is becoming every day more and more critical. The reign of terror has at length begun. Parliament in the short space of seventy two hours has suspended the habeas corpus act, and already an immense number of warrants, to take up, seize and imprison all persons on the first of March next who are suspected of being disaffected towards her majesty's crown and government, have been issued, troops in great numbers are being sent into the country, and every thing that might and power can do to curb the rebellious tendencies of the people, is put into operation with a degree of alacrity and zeal very unusual in the administration of Irish affairs. Meanwhile the people are organizing. The south is in a state of extraordinary excitement, and the cry on all hands seems to be for arms.

A letter received from Dublin, dated July 26 says—

"The Admiralty steamer Banshee entered Kingstown harbor at half past seven o'clock this morning, with a Queen's messenger, who came express from London with a copy of the act for suspending the Habeas Corpus. A special train was at once provided and the messenger proceeded by the railway to deliver the act to the Lord Lieutenant.

"The government have determined upon a considerable number of arrests, and it is stated that so many persons not heretofore openly connected with the revolutionary movement are to be taken up. It is said that four clerks have been occupied in making out warrants which await the arrival of the act author to grant the Lord Lieutenant to take the necessary steps.

Still Later from Ireland.—Our Express which left Dublin at nine o'clock last night just arrived, and our advices convey the gratifying intelligence that Dublin continues perfectly tranquil, but no further news had been received.

Our Waterford correspondent's letter has just arrived. It is dated yesterday, and states that all is quiet there.

The magistrates of Liverpool it is said have determined to arrest the leaders of the Liverpool demagogues. D. Reynolds anticipating this course has fled to Birmingham to which town an officer has been dispatched with a warrant for his apprehension.

Election of Judges by the People.

As an argument for a change in our Judicial System so as to have our Judges elected by the people I have in a previous article asserted that under our present mode of Judiciary System as it is termed illegal amounts of illegal costs are allowed to be charged by attorneys and others. We will now produce the evidence to sustain the charges and show some of the evils that see the necessary result of these exhaustions.

I shot our Courts allow $2,54 for writs as so well known as to require no direct proof which is $1.50 more than the Statutes allow by the most liberal construction. The law in relation to fees for writs can be readily examined by any one and by these it will appear there should be allowed an attorney for a blank writ 4 cts for pltfs. declaration 50cts for power of attorney 50 making $1 04.

Formerly an admission fee of $35 was required of an attorney or a special power of attorney to practice in our courts that provision of the law was probably the reason for the allowance of 50 cts for power of attorney, and has since been repealed virtually repealing the section allowing 50 cts to be charged for power of attorney. And this I believe is the opinion of good lawyers who have examined the subject. So that we say $3 50 at least and we believe $4 00 is taken from every man in the State under the present Judicial system. Illegally, not happy to be so unfortunate as to have the highest of all words in the English language abused in his name — *for want thereof take the body.* This may at first seem a small matter but let us consider what it amounts to in this State annually and the circumstances under which it is taken. There are in this State 52 terms of holding the different courts in the several counties we think to which at each term 500 writs are returned, making 27,000 writs annually paid for at an expense of $1 50 each which makes a total at least of $39,000 and we think the true excess to be $2 50 which would make a total of more than $50,000 annually which in twenty years would augment to a million of liars that under the present system, is to be taken from the pockets mostly of the poor and laboring classes and given to those who perform no essential labor — who produce nothing. And it is most unjustly taken may be brought before the courts that set in the halls of Justice sworn to see the law faithfully and impartially executed; and bound hand and foot while the atty is allowed to abstract this sum from them, as it comes in the shape of an execution and resistance is of no avail.

Any private individual in the community who should be guilty of such an outrage would be arraigned at once to answer. Suppose the miller should take two quarts of toll more than allowed by law, or the oil gatherer at the bridge should take illegal toll what would be said of them, why they would be instantly turned out of employ and branded as corrupt.

It seems to me that it may be said that there is a further allowance of $1 50 for an issue of fact or of law and that is where the authority is derived for making the $2 54. No good lawyer will say that an issue of fact or of law is any part of a writ, it is when issue is joined or to use a common phrase where the case comes to trial. In which case I am quite certain that the jury is charged in addition but not being in possession of sufficient evidence on that point I will not affirm it as a fact. A small fraction of the cases that are entered in court are of this sort so that but much can be abstracted from the above calculation on that account.

Again the law allows 57 cts for a Justice writ and our courts I am informed allow lawyers to tax $1 00 under the miserable quibble of 43 cts for declaration just as though the declaration was not included in the writ. I venture as a part of the writ, which quibble would be acquired by the court at present as a private individual as any law except that relating to fees. Suppose 300 towns in the State and 30 writs to each town we have 9000 Justice writs with an excess of 43 cts on each, which annually amounts to $3 870 and in twenty years would be $77 400, making $1,077 400 taken from one portion of the community and given to another in twenty years without law.

I may not be exactly correct in my estimates, it may be more or less, but is near enough the truth to show that we are enormously taxed to support what I believe to be a corrupt system. In this article I have considered only the abuse in the item of extra costs on writs which is small compared with other abuses that are practiced by way of extra allowances of other fees, and determinations or questions of law founded on old English precedents, which we will inquire into in some further articles.

I do not think good lawyers are too well paid for their professional services, intellectual labor and profound research should be liberally rewarded. But the mere making of court writs is a mechanical labor a trade that can be learned by spending a few hours in a lawyer's office in the first of each day for a few weeks, when they emerge forth and issue themselves on the community as lawyers, under the provisions of the Revised Statutes.

It is of no use to disguise the truth that the profession is a hot-bed system, that produces lawyers faster than an old garden does weeds to dog days, and while we admit that many of them are intelligent young men of moral worth, truth compels us to say we believe many who enter the profession are young men who are too lazy to work and not having sufficient capacity of mind to get a living by business, take a vantage of the provisions of the Statute allowing anybody to practice without examination. They open a law office become a lawyer's office and set themselves down in some little village and prey upon the community by hunting up all the writs they can get to make, and taking advantage of all the technicalities of the law, that they can search out, or laws founded on erroneous constructions whereby they may wrench from innocent gentlemen and others their hard earnings and one of these creatures who is a disgrace to any profession has been recently tried and convicted by a Jury of attempting to defraud a traveller out of a horse under circumstances that rendered it little better than stealing.

Correct views abound not exist in our Industrial System, and any word for it it would kill off these mush room lawyers, as quick as frost the meadow brakes, and leave the learned and honorable of the profession in the enjoyment of an honorable income while it would relieve the community of the grossest oppression and a heavy tax.

DAVID BROWN

Hampden, July 25 1848

For the Whig and Courier.

The Potatoe Blight and Rot.

In the years of 1845 and 46, I gave my views upon the subject of this article pretty fully in your paper. In 1847 my experience and observations confirmed my previously formed opinions, that the potatoe blight, 'rust,' or decay of the leaves or stalk, are produced by the influence of the atmosphere at a certain period of the age of the plant, and that the 'rot' is caused by fermentation.

In 1847 I planted several kinds, some early and some late. Up to the 24th of August I had seen no indication of rust on my vines. But hearing my neighbors complaining that the tops were rusty, and having read in the papers that the rust prevailed in various places, I was induced on that day to examine my potatoe patch as critically as I could discover no indication of rust on the late planted and but a very few leaves on the early planted. On the next day, the 25th, the weather was cloudy and cool—wind north east, and blowing fresh till near noon, when, as the sailors say, the wind began to lull and the clouds to disperse, and by 2 o'clock it was and perfectly calm and perfectly calm and the rays of the sun were intense what up to 6 o'clock.

The night was clear, calm and cold, with a most deep as dew. The morning of the 26th was clear and calm—not a cloud to be seen and not a zephyr ruffled the lake but it reflected a perfect calm, and by 7 o'clock, the heat was as oppressive and the rays of the sun as scorching as at noon days, with the mercury at 90 degrees. On the evening of the same day at about seven o'clock, I discovered that the tops of my potato patch near the house were rotten, by the smell they emitted. On the morning of the 26th I examined this patch of three kinds and found the stalk and leaves covered in spots with a blue mould or mildew, resembling the mildew upon pea vines.

This patch was planted late upon new laid, never before planted ground and not manured at the time of planting, and the tops never were thrifty covering the ground entirely and on the 24th were of a dark green color, but on the 26th were sinking with a sickly rottenness which I was on Saturday week the 29th, there was a great deal of stalk in the patch, were one half of the people, planted early was scarcely effected at all.

Now I am apart of opinion, in regard to the blight, to which I cause not to ascribe the blight of my late and potatoes. I ascribe to honey dew. Honey dew is deposited by sweet flies. How honey dew is produced, as Johnson says, the learned have not agreed. In the absence of all light upon the subject drawn from science and learned men, I shall haze the conjecture that honey dew is produced by the same rays of light upon the leaf or stalk of a plant through a dew drop, in a still state.

In addition of the fungus seed and insect theories, and the unsettled, other theories of will flare up, and ask have we not as much weight as they? Why has up the rays projected on the said effect the same manner? Not being a botanist how I can say another as a yankee, where honey dew is supposed to be, and your assertions to the contrary notwithstanding. The only difference in establishing the fungus seed and insect theory is the want of magnifying glasses to shew the power to see them. This is my prediction.

If I had had an instrument of half the power to enable me to see the fungus seed, on the morning of the 25th of August, I am told I have been able I am confident to have seen, dew drops hovering down of honey, as the boiling water or stew that kills the plant, and not the sweet or honey.

But, as like many others, I can see no thing in the potatoe blight and rot, to cause alarm. I keep it as simply a taxon of progress. We live in a remarkable progressive age, and not only progressive but precocious and not only precocious, in the common acceptation of the term, ripe before the time, but, rotten before ripe.

The blight and rot are the result of two causes, more or less combined and I propose to treat of the rot in another paper.

A GLEANER FARMER

Discovery of Mummies at Durango, Mexico.

The Texas Star states that a million of mummies have been discovered on the environs of Durango, in Mexico. They are in a sitting position, but have the same wrappings, bands and ornament as the Egyptians. Among them was found a sculptured head with a poignard of flint chaplets, necklaces, &c., &c., fabricated colored beans, fragments of bones pot shell like ivory, fine worked plastic insoles, (probably india rubber cloth) opossums worked like those of our Indians today, bones of serpents &c. It seems safe to conclude these antediluvian arches, and America will become another Egypt to antiquaries, and her ruins will go back to the oldest period of the world, the wrappings doubtless, the ancestors of the Montezumas lived on the Nile.

More Tariff Remedies.

The indications in the country, at this time, are, that we are beginning to feel the influence of the Polk Tariff upon the energies of the nation. The workmen are finding out how it will affect them, and general industry is now experiencing its paralyzing power. We understand the Daniel Kimball, Esq., of Boston, has stopped his Woollen Mills in Fitchburg, and about fifty of Planed machinery have been or soon will be, stopped in Andover and, other places. It is also stated that fifteen hundred hands have been discharged from the large Iron Works near Troy N. Y. and as many more will have to follow, as soon as present contracts are filled. These are the *practical* results of the Free Trade, as it affects our workingmen and our own interests.

[Lowell Courier.

☞ To nations, but not to Cures, is the object of nearly all the medicines now offered, for the cure of the Lungs, in the United States. Such is not the case with the Sanfarian Balsam of Life. This compound, and will cure, the most dangerous of cases.

From the Boston Transcript. If anything could reconcile us to the disgraceful duty of opposition to the avaricious principles in the management of banks, it would be to the extraordinary reputation which the Sanfarian Balsam of Life, which we believe, both from personal analysis and the statement of the proprietor, is a purely vegetable compound, has obtained in the short time it has been before the public.

Dr. Townsend's Compound Extract of

SARSAPARILLA,

THE MOST EXTRAORDINARY MEDICINE IN THE WORLD.

This Extract is put up in Quart Bottles—it is six times cheaper, pleasanter and warranted superior to any sold. It cures without vomiting, purging, sickening or debilitating the Patient.

The great beauty and superiority of this Sarsaparilla over all other medicines is ... it eradicates disease ... SPRING AND SUMMER MEDICINES ... GENERAL DEBILITY AND WANT OF NERVOUS ENERGY ... INVIGORATING CORDIAL ... CONSUMPTION CURED ... SPITTING BLOOD ... RHEUMATISM ... FITS! FITS! FITS! ... FEMALE MEDICINE ... TO MOTHERS AND MARRIED LADIES ... GREAT BLESSING TO MOTHERS AND CHILDREN ... BEAUTY AND HEALTH ...

NOTICE TO THE LADIES.

Those that imitate Dr Townsend's Sarsaparilla have invariably called their stuffs a great remedy for Females, &c, &c ... This Cordial ... SCROFULA CURED ...

...cases of the blood ... Three persons cured in one house is unprecedented.

Dr Townsend ... I have the pleasure to inform you that three of my children have been cured of the Scrofula by the use of your excellent medicine ... ISAAC W CRAIN, 106 Wooster st

MRS. E. KIDDER'S DYSENTERY CORDIAL,

—AN—

Immediate & Perfect Cure

—FOR—

CHOLERA MORBUS, DYSENTERY, DIARRHOEA, SUMMER COMPLAINTS OF CHILDREN, SICKNESS, GENERAL DEBILITY, etc etc

WHERE this all powerful but delicate hand ... Cholera, Dysentery and Chronic Diarrhoea are no longer to be seriously feared or looked upon with terror—as this Cordial will most assuredly cure the disease in the course of a very few hours if taken at the commencement.

It has been before the public for more than six teen years and was the first article made known to the public as an immediate and perfect remedy for these complaints. It has been thoroughly tested in every country and every climate, and the effects have every where proved the same—SURE TO CURE, even where the disease had advanced to the last stage. The public may rest assured that it contains neither opium or mine all substances or any thing that is in the least injurious to the constitution.

Cholera and Common Cholera Morbus

This Cordial immediately checks the vomiting, relieves the pains, stops the Diarrhoea and restores the bowels to a perfectly regular and healthy state ...

Severest cases of Dysentery,

...

Chronic Diarrhoea,

...

Cholera Infantum

...

Sea Sickness

It is a most pleasant and valuable remedy for Sea Sickness. It checks the vomiting and readily restores the patient ...

Children that are Teething,

...

For General Debility and Dyspepsia.

It is a most excellent restorative ...

BOSTON MUSEUM,
TREMONT STREET,
Between Court & School-sts.,
BOSTON.

THIS establishment having been removed to the superb edifice erected for the express purpose at a cost of nearly a QUARTER OF A MILLION DOLLARS is now acknowledged to be the most valuable and perfectly arranged institution of the kind in America. The entire premises cover nearly

Twenty Thousand Feet of Land,

the whole of which, with its numerous cabinets is crowded with every variety of Birds, Quadrupeds, Fish, Reptiles, Insects, Shells, Minerals, Fossils, &c., from all parts of the world together with upwards of

ONE THOUSAND COSTLY PAINTINGS and rare and valuable ENGRAVINGS among which are Sully's great Picture of

Washington Crossing the Delaware,

Portraits of the Governors of Massachusetts and all the Presidents &c painted by the best artists, lining the walls in every part and with the unique Statuary, Egyptian, Indian, and Polynesian Relics, &c swelling to the number of nearly

Five Hundred Thousand Articles,

comprising every conceivable

Rare and Curious Thing,

that can interest or amuse and among which visitors will always find something that is

New, Strange & Instructive.

The most liberal arrangements having been made both in the old Country and this for procuring living novelties such as

Giants, Dwarfs, Orang Outangs, &c

The entire of this gigantic collection is on exhibition every day and through the evening

Splendidly illuminated with Gas!

in addition to which every evening and on Wednesday and Saturday afternoons for the accommodation of strangers a series of

THEATRICAL AND MUSICAL PERFORMANCES,

consisting either of *Sterling and witty Comedies, Thrilling and Ingenious Dramas, Soul Inspiring Operas, Mirth moving Farces, or Gorgeous Spectacles*

are enacted in the

Magnificent Exhibition Hall

by performers of acknowledged talent aided by an Orchestra unequalled in the Union and with Scenic and Stage Arrangements that cannot be surpassed. Every department being under the immediate direction of the most Talented Artists of the Profession, the proprietor is enabled to defy

COMPETITION IN THEATRICALS!

whether it be in regard to Quantity, Quality, or Price.

The most perfect cleanliness order and decorum is maintained throughout the establishment, which has secured it the reputation of being the

CHEAPEST PLACE OF AMUSEMENT IN THE WORLD!

and to enable all visiting the city to examine not only the

Vast Collection of Curiosities,

but also to witness the splendid, chaste and amusing entertainments. The price of

Admission to the Whole

is only 25 cents. Children half price.

On all Holidays and particularly

On the Fourth of July,

Extraordinary Attractions are presented and performances given at intervals throughout the entire day and evening

jun 2 eow10w

ASSIGNEES' NOTICE.

NEVER DESPAIR OF LIFE!

KELLEY & CO'S
HIGHLY CONCENTRATED

SARSAPARILLA

Cures the Worst Diseases that ever preyed on the Human System, and saves Thousands of Lives Annually!

10,000 CASES

OF SCROFULA cured by it the year, and 5,000 Cases DYSPEPSIA and HUMORS, of which *proof* can be furnished. This is the only medicine known to cure these diseases

THIS Sarsaparilla will bear TWO QUARTS OF WATER to a Bottle and then be far superior to any in use. It is put into the Bottle at FULL STRENGTH, and power, without reducing it, and this is done for the special benefit of those who use it as it is obliged to all other Sarsaparillas that they are Weak, Clammy, Adulterated, Sickish, and are wholly incapable of reaching the seat and cause of the disease. But this Sarsaparilla comes warranted to be

Six Times Stronger

than any other and Six Times Better Safer Surer, and Cheaper than all others. THIS Sarsaparilla has been well on it some of the best MEDICAL Talents and Skill in the world, and CURES all the Sickness KILLS all the Pain and REMOVES all the suffering that it is in the power of Human means to do. It Cures

Scrofula, Dyspepsia, Jaundice, Liver Complaint, Humors, Canker, Costiveness, Rheumatism, Cancer, Debility of the System, Salt Rheum, and every Disease which arises from Impure Blood!

CONSUMPTION CURED, WITH
KELLEY & CO'S SARSAPARILLA!

A PHYSICIAN, who is truly the most distinguished of any in a large City for professional skill CERTIFIES astonishing as it may seem, that he actually CURED a case of **Consumption** with Kelley & Co's Sarsaparilla, and says that there is no medicine in which he has so much confidence for Diseases of the Lungs." Some will marvel at this REMARKABLE Cure, but hundreds are knowing to the fact. I'm INESTIMABLE Sarsaparilla is also doing wonders in foreign cities and says

SIR BENJAMIN BRODIE,

Surgeon to the Royal Family of England that there is no other medicine which is CAPABLE of doing so MUCH GOOD, and yet so INCAPABLE of doing injury. What distinguished compliments are these! Never was there a medicine honored with STRONGER RECOMMENDATIONS. It CURES when every thing else fails, the

Severest Scrofula and Humors,

where the flesh falls off the bones—the bones are diseased and the DART OF DEATH seems ready to strike the sufferer. And the reason for this is, that it makes the BLOOD perfectly Pure Rich, Healthy Quick, Free Nutritious. It CURES all those ALARMING cases of DYSPEPSIA and JAUNDICE, where the Liver is swollen and Pain and Strength wasting, Appetite gone. Pulse weak, or Feverish, Skin yellow, Nerves deranged. It restores Health, Strength, and Vigor to every disordered function of the System—causing them to serve in just as Nature requires. And for its WONDERFUL Power over Disease in every form in part which no other Medicine possesses, the public justly style it the

Master Remedy of the Age!

The great secret of all its triumphant success over all other Sarsaparillas, is that it does not tamper with the patient or prolong his sufferings. But it first attacks the disease and stops it then removes it, then brings up the flesh and strength on a perfectly pure Blood, so that the cure is always thorough and permanent. Other only scatter or hack in the disease but the EXTIRPATES it wholly from the system—thus saving the patient's life, while every endanger it. The whole Body is made so healthy by the use of this GIANT MEDICINE the System so vigorous—the so cheerful—Nerves so quiet—Skin so fair—Spirits so buoyant, that Medical Colleges, Professors, and Physicians always prefer it for the sake of its Superiority. Try it all you who are seeking the PRICELESS BLESSINGS OF HEALTH

Ladies, Married and Unmarried!

It is for you especially this Sarsaparilla is made, as the HEALING ART has been tasked to the utmost to have it exactly suited to FEMALE COMPLAINTS. These Complaints have never been cured for as they ought, hence it is that all the medicines which are used with the hope of Cure, so invariably and entirely fail. But this Sarsaparilla has the SPECIAL ability, to cure every Disease Affliction, or Pain which comes under this head. It regulates the secretions—corrects the irregularities of the System—restores strength to every part—bestows the complexion—imparts a flow of spirits—cures palpitation of the Heart—removes Blotches, Pimples, Freckles

MADAME DOUPEE
Female Physician,

RESPECTFULLY informs the Ladies of Boston that she will attend to all cases of Female Diseases

Madame Doupee is well known in this country as a celebrated Female Physician from Paris. She has practiced in the city of New Orleans for ten years past with unparalleled success.

Madame Doupee attends only to the diseases of females. She is the widow of Dr Doupee of Paris and uses the celebrated Pills known as Dr Doupee's Female Monthly Pills. These Pills have long been in use in Europe and the United States, and are well known by ladies to be the great regulator of the menses, having never been known to fail.

Madame Doupee cautions married ladies not to use these Pills during pregnancy.

Females laboring under various weaknesses peculiar to their sex may consult Madame Doupee with the utmost confidence being sure of relief and a *certain cure.* The strictest secrecy observed.

Price of the Pills $2,00 a box, and are warranted in all cases. All communications (post paid) with a fee enclosed, will be promptly attended to.

Madame Doupee may be found at No 55 Union St, from 8 A M to 8 P M. wly Feb 17

CONSUMPTION CURED!
Buchan's Hungarian Balsam of Life,

THE GREAT ENGLISH REMEDY FOR *COLDS, COUGHS, ASTHMA and CONSUMPTION!*

BUCHAN'S HUNGARIAN BALSAM, the Great English Remedy for Pectoral and Pulmonary diseases still stands unrivaled and unsurpassed as the most elegant, agreeable, and effectual curative of those formidable complaints, now known to the civilized world

Three years time of trial in the United States during which time it has been distributed from Maine to Florida, has only served to establish its pre eminent merit in all parts of the country, as the great and only reliable remedy in the worst cases of Pulmonary disease, and the best and most agreeable curative of all the slight forms of colds, cough and inflammations that can possibly be used

INCONTESTIBLE PROOFS

Of the efficacy of this Balsam in the worst forms of Consumption

IMPORTANT MEDICAL TESTIMONY

DR. BRADLEE—Dear Sir The Hungarian Balsam is beyond all question a most perfect and admirable preparation for diseases of the Lungs. I have used it in my family and in my professional practice for more than two years with the most uniform and entire success, in cases of severe *Pulmonary disease,* and I can conscientiously recommend it to all who are afflicted as the most certain remedy for such diseases with which I am acquainted

FREDERIC T STORER, M D

Boston May 22 1846

Reliable Evidence of the Efficacy of BUCHAN'S HUNGARIAN BALSAM

[From the Christian Freeman]

While we repudiate quackery, we are always pleased to give credit for that which is truly useful, and to give information which may benefit others. A few days ago a brother of ours, from Norway. He came into our office in comfortable health whom we did not expect to see again on earth. We received a letter a few weeks since, from another brother resident in the house, with him, saying that he was confined to his bed and could not probably continue but a short time. Judge then of our surprise when we saw him enter our office. He has a slight cough remaining, as it would be natural that he should have, until he has had further time for acquiring strength of lungs. But he is in comfortable health. The following letter which he addresses to the general Boston Agent for the medicine which has restored him so wonderfully, will show what medicine has been the instrument of the good work

Boston, Feb 19, 1847

Dr D F Bradlee—Sir—I cannot refrain from saying a word to you in commendation of "Buchan's Hungarian Balsam of Life." Here is a plain statement of facts in relation to my case, and if they are the means of inducing the sick to seek relief at the source from whence I obtained it, I shall be thankful.

My residence is in Norway, Me. Three years ago last fall I took a violent cold which left a cough of the most aggravated kind, accompanied by a severe pain in the left side. Last June I had become so feeble that I was obliged to quit all work and was confined to the house until about four weeks since. During that time I received the best medical attendance, and tried nearly all the medicines which are recommended in such cases, but could find no relief, but grew worse, and for the last three weeks was confined to my bed. Two of my physicians gave me up as past recovery. But as fortune would have it, I heard of the Hungarian Balsam, and immediately procured a bottle. This gave me instant relief, and six bottles have broken up my cough, and placed me in a situation to resume, with advancing health, my usual occupation

BE WISE TO-DAY.

Delay in any case of Consumptive tendency, is fearfully dangerous, under all ordinary treatment. The Hungarian Balsam is a great ANTIDOTE, as well as CURATIVE. If you have any symptoms above described, but advised in time

Sold in large bottles at only one dollar per bottle

The same yesterday, to-day and forever.

Certificate from Col Tate editor of the Columbia Democrat, Pa.

OFFICE OF THE COLUMBIA DEMOCRAT, Bloomsburg Columbia Co Pa, March 4 1848,

Dr William Wright—Dear Sir—I am one of the many who have averse to quack nostrums has deprived them of the benefit resulting from the use of good medicines. Acting under this influence I have seldom resorted to the pill box. Last March when you commenced advertising in my paper I was induced to give your Indian Vegetable Pills a trial, and after having fairly tested the merits for my self and family each them a decided preference over every other preparation.

In every instance when afflicted with sick head ache, or when the stomach or life was encumbered with morbid humors, I found speedy relief from the use of your Pills. By taking from four to six on going to bed when indisposed, I have always been restored to health, without loss of time and without the expense of a physician. Wright's Indian Vegetable Pills possess the distinguished merit of operating effectually, without disturbing the rest of the patient and in my case without producing even sickness at the stomach

Respectfully, your friend, &c
LEVI L TATE

[From the Delaware Express Delhi N Y]

WRIGHT'S INDIAN VEGETABLE PILLS—Although not particularly friendly to patent medicines we must confess that we have become a convert to these pills having but an opportunity on one or two occasions to test them effectually. For a gentle and sound, one or two will be found mild though effect ive. Where bile or other impurities have accumulated, and more thorough medicine is required a dose of three or four of these pills, taken on going to bed, will be found effectual in cleansing the stomach and restoring the bowels to a healthy state. We speak from experience, and take pleasure in recommending the pills to the public

Look out for Counterfeits!

Some are coated with sugar; others are made to resemble, in outer appearance the original article. The safest course is to purchase from the agents only, on or more of whom will be found in every town and county in the State.

The following agencies have been established for the sale of Wright's Indian Vegetable Pills in Penobscot County

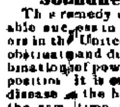
June 23



Kirkbride's Tattersall's HEAVE POWDERS:

A SAFE SPEEDY AND PERMANENT CURE for *Heaves Broken Wind Chronic Cough, Colds,* and all diseases which depend upon inflammation of the mucous membrane in the lungs throat or head of the Horse, or affect the

Soundness of the Animal's Wind.

The remedy which has been used with such remarkable success in England is now offered to Horse owners in this country. It is from one of the most distinguished in the United States as a positive specific for those obstinate and distressing complaints. From the combination of powerful vegetable ingredients in its composition it is enabled to compete successfully with the disease, and at once gives relief to the horse, and ultimately restores his wind. The dose is not sufficient the horse is warranted to be perfectly safe and gentle. I cannot recommend it too highly to Horse and other cattle owners, and does not at all interfere with the horse's usual labor.

New York, Nov 1, 1847

Messrs A H Gough & Co

Gentlemen—You will recollect that I bought a package of your Heave Powders some time ago to administer to a valuable horse at livery in my stable, and that I was quite dubious of the wisdom of attempting to cure such a bad case as his was, and did not, in fact believe there were any medicine better for his complaint than those I had been in the habit of using. But being my sickened patience with these, But notice to you a d your remedy which I require me to say, that that single package cured the case and was all that was necessary to the degree. I can attest to it and his wind is now perfectly good. I believe there are its permanent cure.

Respectfully, GEO FLOYD 193 Laurens st

Messrs A H Gough & Co—Gents—I bought about six weeks ago a package of Heave Powders to administer to a favorite horse, who had been troubled with heaves for two or three years. His case was a very bad one and so severe as to incapacitate him from half his usual labor and had resisted all the remedies ordinarily used for his disorder, and had no effect but to slightly diminish the violence of the heaving while taking the medicine, but that package of yours completely eradicated the disease and now his wind is as good as ever it was. It is a month since he has taken the Powders and I am without the remedy.

Respectfully, GEO W DAVIS, Renton, Middlesex Co., N J

GREAT CONDITION MEDICINE

Beside their specific action upon diseases of the lungs and wind pipe the Tattersall's Heave Powders from their great alterative and restorative properties are an effectual as hereas as sarsaparilla proves to be in the human race for the removal of impurities of the blood and predisposition to disease. Many a case of founder has been prevented and cured by a few doses of the Heave Powders, when thrown into the feed that is given to the heated animal after a hard drive or in powers to inclement weather. They are warranted to cure the worst cough in a few days, and will wholly, and eradicate recent cold by the use of 1 or 3 doses. As a condition medicine they are unequalled, especially when a horse begins to lose appetite, etc., arising from whatever cause, and for the relief of the digestive functions, or an intense of the appetite and worms in the alimentary canal, as described in the following certificate.

Messrs A H Gough & Co—The package of your Heave Powders that I bought of you for my horse's cough he entirely cured him, but in a different way than I expected. The first dose of Expectorant he fed brought away an immense number of worms from him, and I believe they were all the cause of the cough, as he has not coughed since. I am in his condition I have fully recommend your Heave Powders for worms.

Yours, SAM'L ROBERTS

East B mstead, L I, Oct 26, 1847

☞ CAUTION. As several imitations of this medicine are being put up under the name of "Heave Cure," "Heave Compound," &c., persons are cautioned to beware of them, and to try no other remedies but Kirkbride's Tattersall's Heave Powders.

No Bills should be without this potent preventive. Price 50 cents per package of sufficient to cure an ordinary case, 3 for $1 dollar.

Sold by A H Gough & Co, 140 Fulton st, New York, and all the principal Druggists throughout the United States. GEO W LADD, Agent for Bangor, & for sale by J S INGRAHAM, Bangor, Jan 31, 1848.

A ND JALAP—also Nutmegs and Cloves for sale by D BUGBEE

Patent Mill Wheels.

Timbey's Patent
Two Vent Cast Iron Water Wheels

—for—

SAW MILLS,

Invented by T R. Timbey of Cato N. Y.

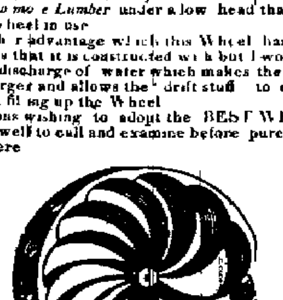
THE undersigned would invite the attention of the Public to the above named WHEELS, which have been thoroughly tested in *Competition* with all other popular

SAW MILL WHEELS

in use at the present time, and they can confidently recommend them with the same head and quantity of water applied as possessing and combining *more Strength and Speed* and giving a more *uniform and Steady Motion* in and out of the cut (and therefore not liable to break cranks) and will also run *longer* and *Saw more Lumber* under a low head than any other Wheel in use

Another advantage which this Wheel has over others is that it is constructed with but Two Vents for the discharge of water which makes the apertures larger and allows the drift stuff to escape without filling up the Wheel

Persons wishing to adopt the BEST WHEEL will do well to call and examine before purchasing elsewhere



We would also call the attention of Mill Owners and Operators to

Valentine's Patent
Reversing Centrifugal Water Wheel,

—FOR—

"UPRIGHT SHAFTS,"

WHICH are adapted for driving all kinds of Machinery in Manufacturing establishments or Mills and are made of different sizes so as to give any amount of power required and from the reputation these Wheels have acquired by the successful operation of several hundred of them already sold and in use, we feel confident in recommending them as combining more advantages than any other Wheel for perpendicular Shafts now used

As evidence of the merits of this Wheel we would refer to the following extracts from the report of experiments made with the same by ITHAMAR A, BEARD Esq *Civil Engineer*—Lowell Mass. who is well known as one of the most Scientific and experienced practical Engineers in this country

"This wheel is formed with curved floats the number depending upon the size and vent of the Wheel, each extending so far around the Wheel that when the water arrives at the jet its pressure is so far expended that it falls very nearly inert from the Wheel. The Wheel is inclosed in a cylindrical wooden curb or flume, in which the water stands at its full head, the column being sustained by the stationary plate underneath the Wheel so that it has no downward pressure upon the Wheel which stands perfectly free in the column of water and by this arrangement all the friction on the step and bearing of the Wheel is avoided and so much of the power saved which in the ordinary mode of operation is wholly lost

This Wheel is adapted to low as well as high heads of water and will run as well in back water as out of it providing the head rises in a freshet as fast as the back water. But a Wheel with the jets rightly guaged for a high head will not answer for a low one, and vice versa for as the head increases the width of the jets should be proportionably decreased so that the water may not issue to waste and not give its best effect to the Wheel.

"In point of power the trials show conclusively that this Wheel is superior to the best constructed Breast Wheels and it has the advantage of working with good effect in situations where the Breast Wheel would be worthless is less liable to need repairs, easily accessible when they are needed, costs much less in the outlay, is much more durable, and takes very much less room in a mill or shop—Simplicity of structure durability of parts convenience of application and excellence of power are the grand points of recommendation for this Wheel

ITHAMAR A BEARD Civil Engineer

PATENTS.
AMERICAN AND FOREIGN OFFICE,
And Agency of the U S Patent Office, Washington

22 State Street—Boston.

THE subscriber by appointment from the Commissioner of Patents, is Agent of the U S Patent Office for receiving and forwarding to the same models specimens or manufactures to be patented, or deposited therein, which will be sent *free of expense and risk* and with despatch. He will prepare Caveats, Specifications Assignments, and all the necessary Papers and Drawings for Patents, will make researches into American and Foreign works, to test the validity of Inventions and render advice on legal and scientific matters respecting the same. Patents secured in Europe and other countries

By application at this office, inventors are saved the time and expense of a journey to Washington and delay there, as well as all personal trouble in obtaining their patents. They also have the advantage of *verbally* explaining their inventions, and of consulting in respect to them, *matters, in general of paramount importance in order to obtain correct specifications and claims.* The experience of *sixteen* years practice, an extensive collection of rare works, decisions &c. on mechanical subjects, the Patent Laws, and patents of different countries, collected at much expense during the long time this office has been established, together with accounts here kept of inventions patented at Washington, enable the subscriber to afford to inventors desirous of procuring Patents, assistance and information which in other respects might be difficult of attainment
